

# SAFE AND HEALTHY STREETS

## Have your say on the York Way Safe and Healthy Streets Scheme

The Covid-19 pandemic has changed how communities live, travel and work. We want our streets to have **more space** for everyone to walk and cycle, for you to be **breathing cleaner air**, for children to get to and from school **safely** and for businesses to **flourish**.

## The changes to York Way

We've been trialling changes on York Way to help make streets safer and healthier by adding new cycle lanes to make getting around by bike safer and easier. We are now consulting on making the following changes permanent and proposing new measures in this area to improve conditions for walking as well as cycling:

- Replacing the temporary 'kerb and wand' segregation with a new raised stepped cycle track
- Adding new 'parallel' zebra crossings that permit pedestrians and cyclists to easily cross
- Adding new sections of wider pavement to accommodate new trees
- Adding new benches and trees along the route to make walking more pleasant
- Adding blue surfacing across side roads and junctions to highlight the cycle route
- Adding blended crossings (where pedestrians get priority) on side roads
- Adding a new bus stop bypass near Star of Kings Pub (Stop C)
  
- Retaining the new T-junction layout at Market Road
- Retaining the new junction layout at Freight Lane
- Retaining the new junction layout at Handyside/Copenhagen Street
- Retaining the shared use bus boarders northbound
- Retaining the existing bus stop bypass near Camden Park Road

## Have your say in the consultation

To find out more – including full details on the plans and monitoring data collected during the trial – and to share your views, visit our website to answer a few quick questions. You can use the QR code below to access the site from your phone, or visit:
